Hp 35s Users Guide - gamma-ic.com

This is shown in a table on page 14-22 of the HP 35s user's guide. Page 3 35s allocates 37 bytes per register for each location, whether the register needs that many bytes or not (see page 14-24 of the HP 35s user's guide). This means that a group of indirect registers that are only going to hold a real number are only using 1/3 of the possible storage space per register.
